

Our designs are the perfect choice to curate warm and inviting spaces.

For more than 25 years, we have been making timeless furniture and accessories manufactured from quality materials. True to our values, we have maintained our goal to produce innovative design, distinguished by authenticity, simplicity and quality.

We rely on our unique expertise to produce singular designs ready to complement and enhance the routines of daily life, durably.

We create collections for every room or space: from the furniture that defines the purpose of an area to the objects that layer it with meaning.

Today, the Ethnicraft collection offers a wide range of pieces: products that are specifically crafted to be functional, flexible, beautiful and longlasting — the perfect choice to curate an inspiring space.

Contract & Trade

Together with interior designers, architects, real estate developers and office and hospitality professionals, we create inspiring spaces.

About

At Ethnicraft, we design, manufacture and distribute timeless furniture and handcrafted accessories. Found in commercial and residential projects around the world, we pride ourselves in making high-quality and sustainable solid wooden items that withstand trends and the test of time. Perfectly suited to the contract market, our collection offers a solution for every project.

Whether it's in an office, where warm and natural materials foster a sense of calm and creativity; or in a hotel, evoking a feeling of 'home' within rooms; or providing a sense of connection for guests in a lobby. Even in a restaurant or bar, our seating and dining furniture can uniquely enhance the experience of the space.

Our collections form the essence of what we believe is good design: pieces full of character, made from quality materials that age beautifully. 02

True partnerships

Benefits specifically suited to Contract & Trade professionals are offered via our Partnership Programme and Partner Portal.

With our Partnership Programme, we can develop valuable and long-standing relationships with professionals. The Programme offers you a range of specialised benefits and conditions.

Via our dedicated service for professionals, the Partner Portal, you have 24/7 access to real-time stock levels, quotes with directly applied trade conditions, order entry and management, and customer service.

Our sustainability commitment

We believe that durability and sustainability start with choosing the right quality material.

As a vertically integrated company, we know we are in a unique position to contribute to a sustainable shift in the industry.

From design to the sourcing of raw materials, packaging and testing, we pay great attention to environmental protection and consumer safety throughout the product-development process. As a company, we work to minimise waste and close the loop toward circularity. Together with our partners, we strive to do our humble share.

Just as society and the industry evolve, so do we. We know there is no finish line in this journey and continue our efforts to constantly improve our products and operations.

DURABILITY BY DESIGN

We pay particular attention to the quality of our products, not only during the development stage, but throughout the entire life cycle. We believe that durability and sustainability start with choosing the right quality material, and wooden products are particularly suited for refurbishment.

Our team is always available to advise on how to care for products and thus extend their lifespan, as well as how to repair them. When developing new products, we consider repairability at the earliest design stage. Where possible, we provide spare parts to further extend the life of our products.

THE ORIGIN OF OUR WOOD

The ultimate noble and renewable material, all our wood is sourced from responsibly and carefully managed forests compliant with the EU Timber Regulations and the Forest Law Enforcement, Governance and Trade (FLEGT) Action Plan. In addition, our wood sourced from Indonesia is verified under the Indonesian Timber Legality Assurance System (SVLK).

Our teak collection includes products certified as FSC® which are clearly labelled in the catalogue. Finally, we carry the FSC® CoC (Chain of Custody) certification of our distribution centres.

WASTE REDUCTION AND CIRCULARITY

We want to remain as environmentally friendly as possible, working to reduce waste from the earliest design stage. With this principle, we design to reduce or reuse as much scrap wood as possible. Production waste such as leftover logs, wood and sawdust are reused for other purposes.

With full control over the (re)design, production, distribution, refurbishing and recycling processes, we are developing a vision for sustainability based on designing for circularity and lengthening product lifespans.

FOCUS ON QUALITY

Producing furniture and accessories at the highest quality, strength and safety is extremely important to us. Our internal protocols are based on the standards set by ANSI (American National Standards Institute) and BIFMA (North American Business and Institutional Furniture Manufacturers Association).

Moreover, specific products within our collections are certified by independent external facilities in order to meet the European requirements for contract-grade use. Products also meet specific requirements based around ecological and health regulations such as toxic substance use and flammability. READ MORE ABOUT OUR SUSTAINABILITY ACTIONS:

workspaces to create, connect, flex, focus, unwind

Overlooking the Botanical Garden in Europe's capital, the Belgium-based real estate management firm, Tribeca Partners, is gifted with beautiful views that extend beyond the office walls. This relationship between interior and exterior is intentional; connecting the workplace with the environment in which it is located is essential.

LOCATION: BRUSSELS, BELGIUM SECTOR: WORKSPACE DESIGNER: SOPHIE THIELEMANS Modern workdays have taken on a very different form.

A variety of spaces are needed for a wide range of tasks; flexibility to shift and flow with the callings of worklife is essential. Tribeca's offices have taken this philosophy and brought it to fruition in a clever, practical, functional and dynamic way.

The open floor plan encourages connection between colleagues. Dedicated workstations have been replaced with mostly flex spaces. Large, comfortable sofas are designed to foster a collaborative environment, and the work café provides a space where teams are welcome to enjoy a coffee and connect.

Bolckmans

02

Make it industrial and modern, yet warm and cosy. The briefing for Bolckmans' newly renovated workspace was clear. Specialising in industrial construction and mastering the entire process from design to sustainable and high-quality building, the company operates with several teams and departments often spread out to different locations.

To create a central hub for connection, old spaces were refurbished and other unused areas were brought into play for extra room. What was once an old lunch space lacking cosiness has turned into snug breakout areas, inviting communal spaces, and a lively corner by the pool table, where colleagues often engage in friendly matches.

A mix of materials and fabrics effortlessly complement each other to create that exact atmosphere that Bolckmans wished for. Warm oak Bok dining tables paired with Casale dining chairs beautifully contrast the black steel ceiling beams that frame the communal space. In the lobby, the Ellipse sofa and Barrow lounge chairs take centre stage, creating an atmosphere where comfort and ambience encourage reconnection.

moody sophistication with a sense of home, elevating the entire experience

Co-creation lies at the heart of the global family business, Beaulieu International Group (B.I.G.), and living by example, they have beautifully brought this concept to life in its new innovative Experience Center. Here, visitors can feel, experience, and discover the full range of flooring and material solutions under one roof. To create an allencompassing experience, the designers carefully selected furniture that reflects the company's mission: enhancing the quality of living and working for every generation. Varnished oak black Casale dining chairs seamlessly blend into the sophisticated and moody palette, while custom-upholstered Barrow lounge chairs and poufs provide a welcoming warmth, offering visitors a soft embrace throughout the Experience Center.

Lab of Tomorrow

De Schorre, a recreational area in Boom, Belgium, is home to Tomorrowland, one of the largest music festivals in the world. Just a stone's throw away is the Lab of Tomorrow, a renowned hub for entertainment technology.

More than 3000m² has been transformed into a cutting-edge space for entrepreneurs, startups, scale-ups and entertainment industry experts to create and unite. From flexible workspaces, private offices and meeting rooms to state-of-the-art technology labs for virtual scenography, audio productions and immersive sound, Lab of Tomorrow offers everything needed to be an innovation campus dream. Looking out, coworking residents can enjoy Tommowland's iconic Ferris wheel, while inside, they are met by an interior that radiates contemporary warmth.

Warm tones are thoughtfully balanced throughout the coworking and meeting spaces, blending pine green Barrow lounge chairs and poufs with the lighter oatmeal Ellipse sofa. Upholstered leather loungers, teak Osso stools and a striking golden bar counter add a touch of sophistication, creating a refined and inviting atmosphere in this dynamic ecosystem of ideas and collaboration.

Compaan

Community, coworking and connection are at the heart of Compaan, a high-focus coworking and event space designed to bring like-minded local entrepreneurs together to work and network. A tranquil beige palette sets the tone, offering a serene backdrop that minimises distractions and allows residents to let ideas flow. At the centre of the coworking area, Bok cowork desks, equipped with built-in power outlets, serve as the hub of activity and creativity, providing plenty of desk space for all. The meeting rooms and kitchen area continue the theme of simple sophistication, featuring organically shaped Mortex tables paired beautifully with the iconic Bok dining chairs. Osso counter stools further enhance the kitchen space, encouraging informal conversation and colleague connection.

LOCATION: BRUSSELS, BELGIUM SECTOR: HOSPITALITY

Brussels Airlines passengers traveling to Sub-Saharan Africa can await boarding time in style. The Sunrise Lounge, located in the T-zone of Brussels Airport, has been redesigned into a more spacious lounge, complete with Ethnicraft furniture for optimal comfort.

To give guests an enjoyable experience, the Sunrise Lounge has been reimagined to include new dining options, spaces to rest for a long layover, and reorganised floor space with more seating — through a large window, travelers can watch planes take off and land from the comfort of our Osso stools.

Within the lounge, solid oak Torsion tables organised in two- and four-top configurations welcome travellers to stay and have a bite, read a book or go over their upcoming itinerary. Benches and upholstered Bok chairs provide ample seating to spend time prior to boarding.

INTERIOR ARCHITECT: CAROLINE NAVA

Take a trip to Puglia without ever leaving Brussels. Il Giardino, known for its traditional Italian flavours, offers an authentic culinary experience that now extends beyond the menu. After completely refurbishing the interior, this beloved restaurant, serving guests for over 15 years, exudes more character and charm than ever before. Inspired by the iconic trulli of Puglia—traditional stone huts with corbelled roofs—the interior incorporates rounded shapes and elegant arches. At the same time, the walls are painted in neutral and delicate tones.

A blend of wooden furniture and accessories, including the Bok and Casale dining chairs, Torsion and Circle dining tables, and the PI wall hanger, further enhances the intimate and warm atmosphere. Together, these changes ensure II Giardino remains a place where guests can savour exceptional cuisine and connect with the rich traditions of Puglia, making them want to revisit time and again.

Trays

Specifically designed and released to mix and match within collections, create a tray table set by selecting from our perfect combinations, or by forming your own pairing. Placing and replacing trays to tray tables is simple with our specially designed bases.

Natural materials and artisanal qualities with a twist

Trays also function as décor or serve ware, or even as art when placed on a wall. Layer in texture, play with pattern combinations to suit the season or your mood, or just because you want to.

How to care for our products

About natural materials

The beauty of natural materials lies in its peculiarities and imperfections. That is what separates true beauty from the artificial. Variations in wood grain and colour, knots, medullary rays and other natural characteristics are inherent in solid wood. These are far from flaws, but an intricate part of its character. Natural stone can also have minor pitting or surface fissures. We believe that these imperfections contribute to the charm of Ethnicraft products.

Wood, like any other natural and porous material, continues to absorb and release humidity throughout its life. Although Ethnicraft designs furniture that adapts well to the hydrometric conditions of its environment, some cracking or movement may occur. Please do not be alarmed, this is a normal response to the furniture's environment.

TIMELESS DESIGN

All our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be moved from one space to the next, carrying over the stories of one lifetime into another. Our collections go back to the essence of what we believe is good design: pieces full of character, made from quality materials that age beautifully.

CRAFTSMANSHIP

Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation. Incorporating advanced techniques to our process of creation, each new design is revised and reworked to the last detail: every curve, texture and line reflect our design values.

General care & maintenance tips

- **01** Recommended humidity in the room for interior products: between 40 and 60%.
- **02** Ideal room temperature: between 21°C/70°F and not below 14°C/57°F.
- **03** Do not drag the furniture along the floor; always lift the furniture when moving.
- **04** Avoid exposure to extreme conditions: do not place furniture or accessories near heating sources or air-conditioned spaces.
- **05** To prevent staining, we recommend that any spills are removed immediately.

- **06** When cleaning the surface, always work in the direction of the wood grain.
- **07** Use placemats and/or coasters to prevent hot pots and pans, or cold glasses and bottles, from damaging items.
- **08** Always ensure water and solutions used to clean the floor do not come into contact with the furniture's base, as it might leave permanent marks. For items that feature rubber glides, avoid alcohol-based cleaners on floors they are in direct contact with.
- 09 Indoor products are not intended for outdoor use. An outdoor product will always indicate so in its name. Last but not least, we always recommend to carefully read the care instructions specific to your item.
 10 To prevent colour differences, do not place furniture or accessories in direct sunlight, and move objects placed on the furniture from time to time. Open extendable tables on a regular basis.

340 commercial 2024 care & maintenance 341

Upholsteries & soft furnishings

Do not wash unless clearly indicated on the label attached to the item. Machine or hand washing (even at a low temperature) might lighten the colour and shrink the fabric.

Some items have an anti-stain treatment applied to the textile. If this is dry cleaned or washed, it may affect the anti-stain performance. To ensure the anti-stain treatment properties remain effective over time, or to add protection to non-treated textiles, we recommend using Ethnicraft Fabric Protector.

All woods, hard surfaces & materials

REGULAR CARE

For dusting, use a dry cloth. For cleaning, or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft, clean cloth to prevent spotting.

It is always recommended to protect any surfaces with coasters, mousepads or placemats. Repetitive daily use or heat can damage the finish. Always move objects such as flowerpots, vases, etc., from time to time. Ensure any excess water or dampness is wiped dry immediately to prevent marking the surface.

Any spills or stains on textiles should be treated immediately. We recommend using Ethnicraft Textile Cleaner followed by the Ethnicraft Fabric Protector. Always follow the instructions on the label.

Pilling is the result of excess fibre on the fabric or from external sources. This is not a defect but a characteristic of many textiles.

For our leather items, many of the hides used are left in their purest form. This means there is little or no surface treatment, allowing for the unique natural beauty of each hide to come through. For cleaning and care, use the Ethnicraft Leather Care Kit. Follow the directions of use on the labels.

TO KEEP UPHOLSTERIES IN OPTIMAL CONDITION, WE RECOMMEND:

- **01** Removing pilling by using an antipilling machine.
- 02 Avoiding placing item in direct sunlight.
 03 Dusting or removing crumbs by wiping down upholstery with a clean cloth or soft brush. Do not rub.
- **04** Avoiding using a vacuum cleaner. If you do use one, select the lowest suction and use a soft upholstery attachment.
- **05** Treating spills immediately. Blot up as much of the spill as possible with a clean, dry, white cloth. Do not rub.
- **06** Treating stains by using a clean, slightly damp white cloth, blotting from the outer edge to the centre of the stain.
- **07** Avoiding chemical products on your upholstery.
- **08** Reviewing the care label or instructions specific to your item.

Outdoor

Ethnicraft Outdoor fabrics and woven cord are water- repellent, UV resistant, hypoallergenic and maintenance-friendly.

Our natural teak range comes without any finish or protective treatment. Over time, untreated furniture will grey with prolonged sun and rain exposure. This colour change is completely natural and purely superficial; it does not impact the strength or quality of the timber.

Our black teak range is brushed and varnished with the colour taint applied. This finish has been specifically developed to withstand natural elements such as severe high and low temperatures and UV light, as well as moisture and humidity.

While no additional treatment is required on any Ethnicraft Outdoor teak product, you can choose to apply a specialised teak cleaning product such as Ethnicraft Outdoor Teak Cleaner to remove any dirt buildup from items. To protect against stains and green deposits, and to slow the grey patina process of natural teak, you can use a teak protector such as the Ethnicraft Outdoor Teak Protector.

Our concrete range is hand finished, making each item unique. A clear topcoat is applied to provide optimal protection against any spills or daily use, both in and outdoors.

Our aluminium furniture is lightweight and powder-coated specific for the high UV of outdoor environments. Aluminium is a great low-maintenance material.

Ethnicraft Leather Care Kit

1x250ml leather cleaner + sponge & cloth, 1x250ml leather care & protect 6 kits/1 box

19919

Keep natural leather items in the best condition by using our eco-friendly and water-based Ethnicraft Leather Care Kit. Containing a mild and safe Natural Leather Cleaner and specialised sponge, all leather surfaces are revitalised, effectively removing stains and previous layers of leather cream. The transparent Leather Care & Protect cream then nourishes and preserves leather suppleness, preventing stains and providing additional protection against dirt and moisture, skin oils and perspiration, UV and more. Regular maintenance extends the life and beauty of full-grain leather, keeping surfaces smooth and supple. Do not use on napped leather such as nubuck and suède.
